

## Fiber Feeder 给棉机

### Features

- Evenly feed the mixed fibers from bale opener into the carding machine.
- Machine frame is made from Q235-A steel and completed with modular assembly.
- The spiked lattice is high-quality wooden spike, inner layer with thick canvas, and border around with steel angle pieces for supporting spiked lattice.
- Horizontal conveyor belts are in the front and rear of the spiked lattice conveyor respectively, using slipping-proof leather conveyor material.
- 2 photoelectric channels are in the fiber feeding box and the fiber storage trunk respectively, their positions can be adjusted.
- Additional upper-level fiber storage cabin in the fiber inlet.

### 机器特性

- 将开松混合后的纤维均匀输入梳理机；
- 机架采用Q235-A钢板，模块化拼装而成；
- 角钉帘为优质木帘棒，内衬加厚帆布，周边用角钢作托帘；
- 角钉帘前后各有一条水平输送帘，选用防滑皮帘；
- 给棉箱及储棉仓分别设有2道光电，位置可调；
- 入棉口增加高位储棉仓。

### Parameters 机器参数

Machine Width 机幅宽度	1700mm	Power 功率	2.5kw
Output 产量	100-400kg/h	/	/
