- GetonAgain Garment CAD V2024.1 is a professional software for garment pattern making, grading, and marker nesting. It is available in three versions: standalone, network, and database. The software is designed to provide an efficient and professional solution for individual freelance pattern makers, studios, factories, and large enterprises, catering to custom tailoring, small-batch quick turnaround, and mass production orders.

- The software integrates both the freehand method and the formula-based method for pattern making. Users can quickly create patterns and grading using the freehand method or utilize the formula-based parametric modeling to efficiently create personalized patterns for individual needs.

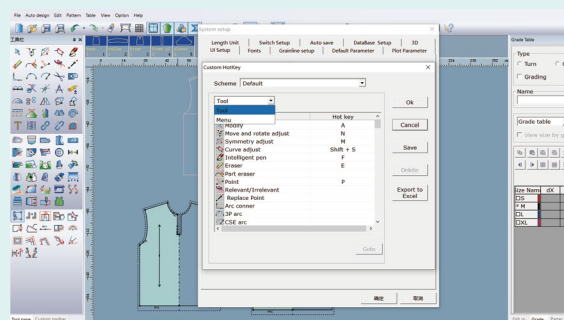

### iPen (intelligent Pen)

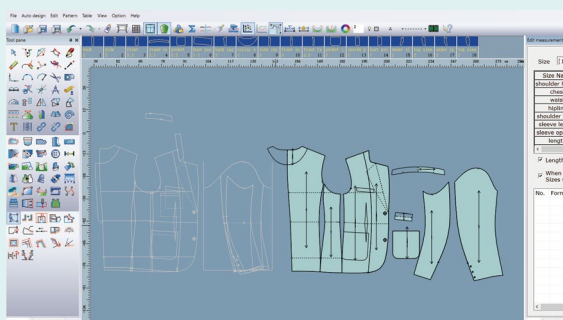

The intelligent Pen tool integrates over 20 functions, enabling pattern makers to draw pattern structure diagrams using just the Intelligent Pen tool.

### DIY Shortcuts

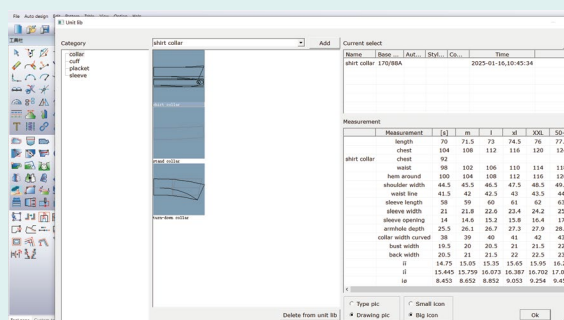

Customize the toolbar and shortcuts according to your operating habits and personal preferences to improve pattern-making efficiency.

### Powerful Modeling

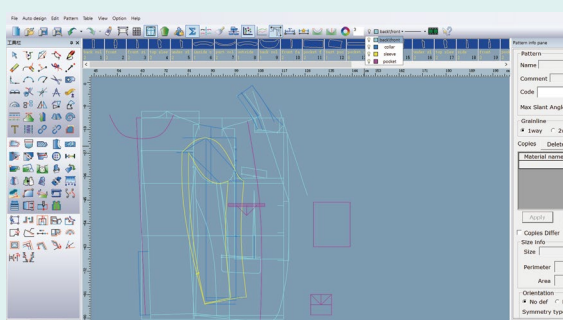

Formula-based modeling enables quick and efficient creation of personalized patterns for each individual.

### Efficient Component Library

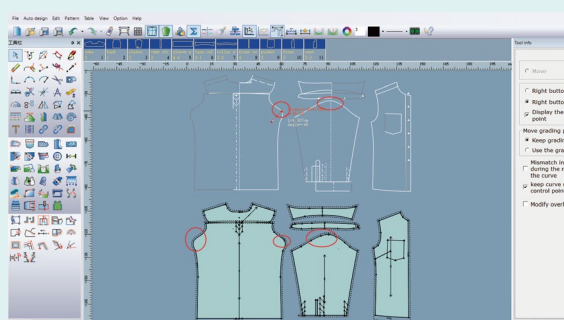

Component Library allows saving frequently used parts for easily adopt for using at any time, automatically associated to the styles new dimensions.

### Layer Application

Complex style structure diagrams, layer settings can be applied to ensure clear lines and allow for quick identification of each part.

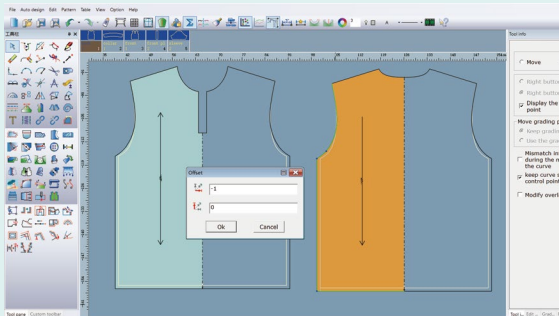

### Linked Modifications

Constructure diagram and patterns can be linked for simultaneous modifications.

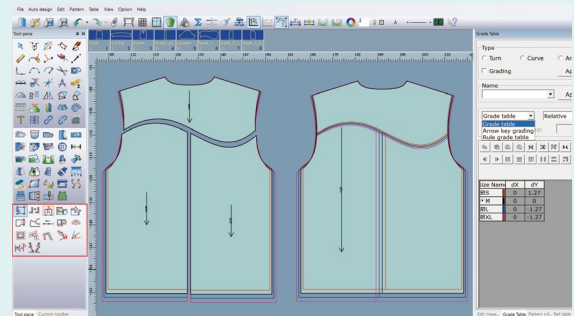

## GetonAgain Garment CAD V2024.1

### Quick Pattern Updates

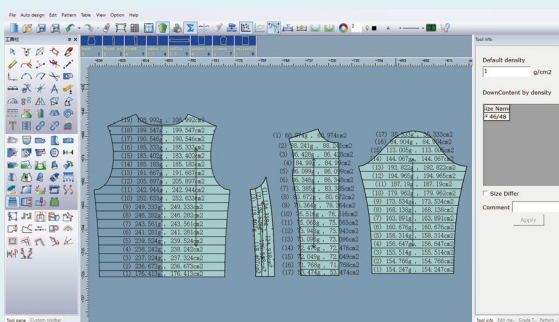

Quickly modify customer-supplied patterns or small-batch patterns.

### Multiple Grading Methods

Software offers various grading functions, including point grading, line grading, angle grading, and rule-based grading, enabling precise grading for points, lines, and areas.

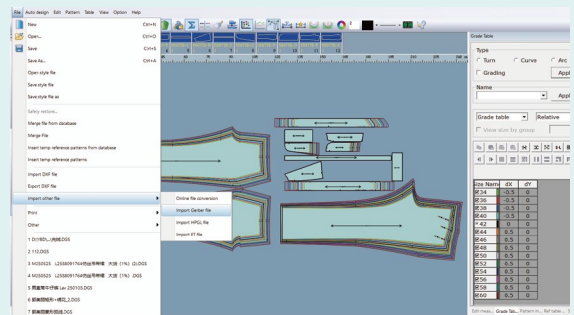

### Auto Downs Filling Calculation

MTO	A	B	C	D	E	F	G	H	I	J
	Name	density(g/cm2)	Loss(%)	Copies	Area(cm2)	Single sheet filling(g)	Down content(g)			
1	under closure	46/48	48/50	50/52	46/48	247.842	247.842	495.684		
4	collar	1	1	1	0	2	346.683	693.366		
5	pocket bag	1	1	1	0	4	444.679	889.358		
6	collecti on	1	1	1	0	1	520	520		
7	back_1	1	1	1	0	2	176.413	352.826		
8	back_2	1	1	1	0	2	236.673	473.346		
9	back_3	1	1	1	0	2	237.324	474.648		
10	back_4	1	1	1	0	2	236.242	472.484		
11	back_5	1	1	1	0	2	239.524	479.048		
12	back_6	1	1	1	0	2	241.281	482.562		
13	back_7	1	1	1	0	2	243.561	487.122		
14	back_8	1	1	1	0	2	246.282	492.564		

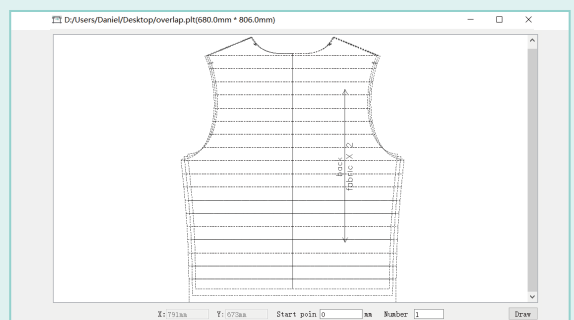

For down jacket patterns, the software provides two filling modes: calculating the down amount based on the required down weight per unit area, and distributing the down weight based on the total weight of the entire garment. Additionally, it can automatically export a down-filling weight table.

### Open External Files

Software supports reading multiple file formats, including PLT, HPGL, DXF, as well as ZIP, PRJ, and DGS formats.

### Export Grading Patterns

Software can output full-size pattern overlays as a mesh diagram in PLT file format.
